In response to the Sonoma County Grand Jury report "Santa Rosa Fire Station Deployment.

**Recommendation (R4)** As soon as possible and as often as necessary, the Roseland Fire Protection District Board of Directors should proactively represent the needs and concerns of the citizens served by the District to the City Council regarding less than adequate emergency response times and any further delays in constructing the new and relocated fire stations.

**Response (R4)** The Roseland Fire Protection Board is very concerned about the needs and concerns of the citizens in the District regarding less than adequate emergency times and any further delays in constructing the new and relocated fire stations. The Board will as often and as necessary represent these needs to the City Council.
